Notice to “Transfer” Players and Parents

Parents and players who are considering registering or reregistering for a team that is outside of their home club boundaries will, in most circumstances¹, be considered a transfer. As a potential “transfer” this form must be completed and submitted to the club with whom they are registering.

Definition of Home Club: Each of the clubs in the Lower Island District have distinct boundaries. Except in a few circumstances, “home club” is the club area in which lies the players home address. The home address is the residence at which the player normally resides with a custodial parent(s) or guardian(s). With very few exceptions a player may have only one home address. According to the address given, your “home club” is: _____.

SOME IMPORTANT POINTS TO CONSIDER

- Players who are accepted to play with a club, other than their home club, will, in most instances, be considered a “transfer”. When playing soccer in divisions of U11 - U18, teams are restricted to three (3) transfers per team.
- All clubs must give first opportunity for registration to their home club and exempt players before confirming a position for a transfer. Some clubs may not allow transfers to register until after a given date (e.g. July 31).
- No club is obligated to register a transfer player.
- No player may try out or play with a team unless the player is registered either in the current season or for the new season. The current season ends with participation in the last regular league, tournament or cup game.
- **IMPORTANT:** Playing as a “transfer” places a player in a vulnerable position on a team, particularly if the team to which they are assigned carries three transfers. Even after having played with a club or a team (as a transfer) for a number of years, a player can suddenly be displaced from a team in favor of another transfer.

A player who intends to register as a ‘transfer’ must complete the following acknowledgement and attach a \$10.00 cheque, payable to the Club, at the time of registration.
